PROJECTS

PROJECT : LEAD MANAGEMENT CRM SYSTEM

- Description: I worked with my team to build a CRM system for managing leads. The system automatically assigns leads, tracks follow-up times, and helps in booking estimates. It supports the full process — from lead generation to client follow-up — making the sales process smooth and organized.
- Technology: CodeIgniter, Python, MySQL, Bootstrap, JavaScript, HTML, JSON

PROJECT : HEALTHCARE CRM SYSTEM

- Description: I developed a CRM system for the healthcare industry to manage patient details and records. The system allows different users (like admin, doctors, and staff) to log in with different access levels. It also includes a feature to run campaigns for patient follow-ups and health checkup reminders.
- Technology: Core PHP, MySQL, Tailwind CSS, JavaScript, HTML
